As *(your title)* of *(your organization)*, I urge FremantleMedia and FOX Broadcasting to give full consideration to Sacramento as a venue for the 2009 season auditions for American Idol.

As the capital of California, Sacramento is at the crossroads to other major cities in Northern California, and serves as a regional hub for commerce.

But more than a great location, the Sacramento Valley is unique in our community pride.

As host city for the American Idol auditions, Sacramento would be more than a venue, we would be a partner in, with singular focus, supporting the American Idol auditions as the world-class event that they are.

We join our voices with those of FOX-affiliate KTXL in offering our recommendation, support and endorsement with the goal of bringing American Idol home to Northern California.
